

Who We Are

In short, we are Moms And Dads. We are not only skilled, well trained, experienced instructors, we are parents of teens our self. What that means is we can relate to the challenges your teen is facing and know all to well the challenges we as parents face every day.

At Bemidji Driving School, we understand

each student is a
unique individual

with there own personality and will absorb
knowledge differently. We tailor our

instruction to each student allowing them
to get the most out of it . This is the rea-
son we have a wall full of thank you
cards from students and parents alike.

We teach our students skills they will
use the rest of their life.

We teach them to drive, not just pass
a test.

It's what
you learn
after you
know it all
that counts.
